

Notes

O.1 (Top Rated), O.2 (Most Viewed) and O.3 (Editor's Pick)

These pages will display videos in a paginated list according to their specific parameters.

A.X.1 (Individual Tag)

Tags should display associated videos from all categories

B (Categories)

A Category can have three different business states: active and receiving submissions, active and not receiving submissions, and hidden (neither active nor receiving submissions).

B.X.1 (Category Top Rated), B.X.2 (Category Most Viewed) and B.X.3 (Category Editor's Pick)

These pages will display videos in a paginated list according to their specific parameters but filtered only in an original category.

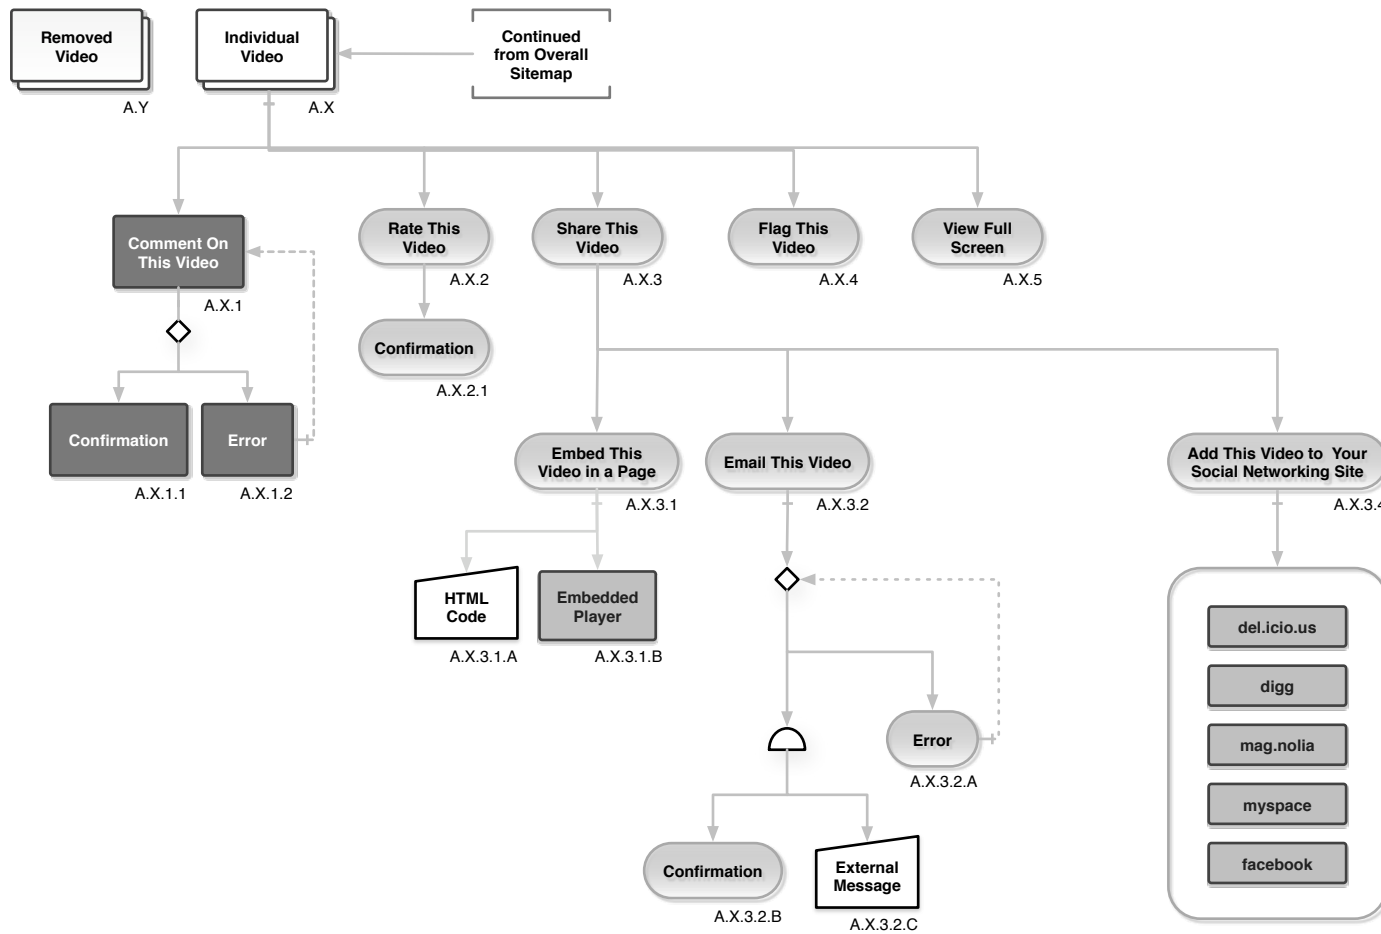

C.X (Member Profile)

A member profile will contain information about an end user as well as all videos ever successfully submitted by that end-user in a paginated format.

G (Search)

Search includes results from all across Everyday Explorer only. Advanced search features would include searching by/for: tag, title, description, member, member content

Notes

A.X (Individual Video)

A user must be logged in to comment on an individual video.

A.Y (Removed Video)

If a video has been removed by its original poster or administratively, the "Removed Video" page will be presented.

A.X.3.4 (Add This Video to Your Social Networking Site)

The social networking sites presented to the user still need to be finalized. The interaction after a user selects a networking site is independent of that site's design/interaction.

A.X.2 (Rate This Video)

An unauthenticated user may rate and then after re-rate a video continuously. If a user has previously rated a video, that rating will be displayed to the user when returning to the video again.
